DESIGNED BY YIGIT OZER

Y I G I T O Z E R

YIGIT OZER is Istanbul, Turkey based product designer that his works are acclaimed by many prestigious international awards such as Red Dot Design 'Best of the Best', Good Design, IF product design, Design Turkey, Elle Decoration.

His works are characterized by a high attention to detail and a vast scope of influences that are mixed and matched to give products a remarkable level of expression.

Istanbul's unique amalgam of the industrial and the artisanal culture has been striving to dissolve barriers between genres and foster multi disciplinary creativity in his works for many manufacturers and brands.

D I A G O N

Diagon divider system approaches acoustical space separation world in a whole new PET felt design perspective. Acoustical space separation approach of Diagon enhances many varieties of living areas through interior spaces to many architecturally variable solutions by the 3 dimensional concave and convex surface design. Diagon's unique rotational system design allows extensive creative freedom to separate, isolate or exposing spaces whenever needed.

This distinguished design has been implemented by Feltouch Felt which developed to meet enviromental norms in line with interior building standards. High acoustic performance rated felt provides sustainable and eco-friendly life cycle with it's recycled and recycable features.

Sense Collection presents the largest panels created by using pressed PET felt technology. This exclusive products are made possible by Feltouch's mastership on felt forming.
