EVERY^{IS1}

ENJOY SEATING PERFORMANCE.

EVERYBODY EVERYTIME EVERYWHERE EVERY^{IS1}

Versatility, good design and high comfort, available to anyone, anytime, anywhere. This is the leading concept from which EVERY^{IS1} has emerged. This is because at interstuhl, we are convinced that good seating is a fundamental right – not a privilege. EVERY^{IS1} is the expression of this conviction. EVERY^{IS1}, an uncomplicated office swivel chair, is just right for the office of the future, in which jobs are increasingly mobile, adaptable and modular. EVERY^{IS1} embodies a new simplicity of sitting – intuitive and innovative. Nevertheless, in terms of design, ergonomics, workmanship and ecological standards, it is a true interstuhl product. EVERY^{IS1} stands for good seating without any compromises. EVERY^{IS1} is the entrance into the world of interstuhl.

How many levers does a human need? EVERY^{IS1} adapts to the user without demanding customisation. EVERY^{IS1} is simple in the best sense. The tension of the backrest adjusts automatically to different body weights, thanks to its newly developed autolift synchronous mechanism. Hence, sitting is weightless. This is all done easily – without any effort – but with the option to limit the backrest tilt to three positions. Therefore, EVERY^{IS1} is equipped with a minimum number of levers and buttons. It assures that the user is not overwhelmed. It also ensures that the excellent ergonomic and comfort features of EVERY^{IS1} are actually being used.

Form follows body. This idea is underlying for the design concept of EVERY^{IS1} in many different ways. Whether as a mesh back version, or the Chillback chair, the shape of the back follows the body contours of the user. The overall design meets ergonomic needs while offering ease of use.

EVERY^{IS1} has a distinguished shape with its light, sleek and transparent design. EVERY^{IS1}'s lines represent autonomy and mutability at the same time. The distinctive back design, with the optional lumbar support, contributes to its distinctive appearance. The extraordinary colour concept plays a crucial role too. Whether with a white or black base line, EVERY^{IS1} remains simple and fresh.

EVERY^{IS1} takes you through the day. Work in the office is getting more varied. The days of people sitting in a static posture are gone. A chair for the office world of tomorrow must be as flexible as the people who sit on it. Computer work followed by phone calls, informal meetings alternate with the reading of documents or handling thick office folders. In between, it is important to lean back and take a moment to recover. EVERY^{IS1} is predestined for these situations. It follows the body movements and can even follow the owner into the next room: Office is where you are.

CARRIER NET

FABRIC MATERIAL

COMFORT BACK UPHOLSTERY **Chillback**

EVERY^{IS1} – your back is covered. The office swivel chair EVERY^{IS1}, with the comfort cushion Chillback, combines the strengths of a mesh back with those of conventional upholsteries. The slim and elastic Multi-Layer structure of the backrest of EVERY^{IS1} Chillback, supports the body contours in a way that usually only mesh would do. At the same time, it provides excellent cushioning for comfort and prevents air currents from behind. Notably, EVERY^{IS1} Chillback has such a small volume, that it equally represents lightness and also maintains its clear profile.

Large Opening Angle

EVEYRY^{IS1} is perfectly suitable for people that work individually, in groups, or in open office and communication situations. Whether institutional, informal or individually: EVEYRY^{IS1} creates a comfortable base. This also makes it a future-facing seating solution.

Particularly large opening angle: The recline option of the backrest, with autolift system, ensures comfort and relaxation.

Height adjustable lumbar support:

The optional variable lumbar support strengthens the back where support is most needed.

2D or 4D armrests:

The optional adjustable armrests are comfortable and relieve the arms and shoulders from tension.

High quality Mechanism with auto lift system: The restoring force of the synchronous movement with fine adjustment of the backrest counter-pressure adapts itself to the body weight automatically.

Synchronous mechanism with body weight adjustment: The restoring force of the synchronous movement can be adapted to the body weight accordingly in seven single steps.

Seat inclination adjustment: with the seat inclination adjustment the angle of the seat can be adapted fast and simply to the working position. The lowering of the seat in the front area is especially ergonomic.

Seat depth adjustment:
For great thigh support.

EVERY^{IS1} is everywhere at home. Therefore, we designed EVERY^{IS1} as an entire chair family. In addition to the swivel chair with mesh or Chillback, EVERY^{IS1} is also available with a higher gas column for counter areas and as a cantilever. EVERY^{IS1} offers a wide range of design options due to its numerous configurations, such as the large selection of fabrics and ergonomic options. This leads to almost infinite design options. Nevertheless, EVERY^{IS1} always remains true to itself: In its shape, comfort, high quality materials and last but not least, its attractive price.

EVERY^{IS1} brings colour to your office. The great selection of upholstery ranges and colours, the two colour concepts and the different base finishes, polished aluminum or brilliant silver offers wide freedom for individual design.

Fabric and colour EVERY^{IS1} Chillback

EVERY^{IS1} Chillback – two colour concepts to choose from: Frame and base available in either black or white, the carrier net of the backrest is always black.

Product design: ID AID, Sven von Boetticher

Sven von Boetticher, was born in 1974, he studied industrial design at the Academy of Fine Arts in Stuttgart. He does not only work as a designer, but also works in areas of architecture and interior design, in order to offer comprehensive solutions for living space. He always combines his passion with quality and innovation with sustainability. This spirit and cooperating with well-known companies create products that are uncompromised in their design, that surprise in their consistency and scope. In 2011, he founded his studio "idaid" with a focus on product design and design consultancy.
